

Grades K-1

BOOK WORMS

by Mrs. Kesler

November was such a fun month for our K/1 class! We do a lot of fun activities during the day, but one of their favorite parts of every day is our chill out time after lunch. The students get cozy, grab a favorite book and relax! It has been so much fun watching these readers grow. Our Kindergarteners have gone from flipping through to look at the pictures to reading stories to each other. Our 1st graders love to read and take comprehension quizzes afterwards! Watching these book worms grow has been so much fun!

ALL THE FALL

by Ms. De-Berry

This month we learned about the Mayflower voyage and the first Thanksgiving. We recited our veterans poem and talked about these heroes and the sacrifices they made. Our family turkey projects were awesome and fooled all who looked at them! Looking forward to a fun December!!!

POEMS AND PIE

by Mrs. Reifsteck

For the past month, our amazing first graders from Mrs. R's class and Mrs. Kesler's class have been memorizing poems to perform for their parents, grandparents, and other special family members. They all did such a wonderful job performing. They also loved getting to spend time sharing their thankful journals with their family all while getting to enjoy pie together.

Grades 2-5

HONORING BY HOSTING

by Ms. Weaver

November brought one of the best experiences to us. Second grade had the privilege to host our very first Veteran's Day breakfast. We were able to serve over 30 Veterans in our school family and entertain them with poems and songs. We loved doing this and are so thankful to all who served our country and protect our freedoms. After our breakfast we transformed our gym into a colonial trading post. We traded goods and learned all about different store fronts of that era. What a special day and month!

VETERAN'S DAY FLIGHT

by Mrs. Herrig and Mrs. McGraw

November was another full and exciting month for our 3rd-5th grade class! On Veterans day we were able to have a super special field trip experience. First, we went to the Savoy municipal building where we were able to observe a special Veterans Day ceremony that included singing, honoring our Veterans, and listening to a few Veterans speak. Next, we went over to a park in Savoy where we were able to see a military helicopter land right before our eyes! After the helicopter landed, we were able to go inside it and explore. We were also able to check out a couple other military vehicles as well. This was definitely a Veterans Day to remember!
